

# JOURNAL OF SOFTWARE

**ACADEMY PUBLISHER**  
<http://www.academpublisher.com/>

**ISSN 1796-217X**

**Journal of Software (JSW)** is a scholarly peer-reviewed open-access international scientific journal launched in 2006, focusing on theories, methods, and applications in software. It provides a high profile, leading edge forum for academic researchers, industrial professionals, engineers, consultants, managers, educators and policy makers working in the field to contribute and disseminate innovative new work on software.

We are interested in well-defined theoretical results and empirical studies that have potential impact on the construction, analysis, or management of software. The scope of this Journal ranges from the mechanisms through the development of principles to the application of those principles to specific environments. JSW invites original, previously unpublished, research, survey and tutorial papers, plus case studies and short research notes, on both applied and theoretical aspects of software. Topics of interest include, but are not restricted to:

- Software Requirements Engineering, Architectures and Design, Development and Maintenance, Project Management
- Software Testing, Diagnosis, and Validation; Software Analysis, Assessment, and Evaluation
- Theory and Formal Methods, Design and Analysis of Algorithms, Human-Computer Interaction
- Software Processes and Workflows, Reverse Engineering and Software Maintenance, Aspect-Oriented and Feature Interaction
- Object-Oriented Technology, Component-Based Software Engineering, Computer-Supported Cooperative Work
- Agent-Based Software Systems, Middleware Techniques, AI and Knowledge Based Software Engineering
- Empirical Software Engineering and Metrics, Software Security, Safety and Reliability, Distribution and Parallelism, Databases
- Software Economics, Policy and Ethics, Software Tools and Development Environments, Programming Languages
- Mobile and Ubiquitous Computing, Embedded and Real-time Software, Database, Data Mining, and Data Warehousing
- Internet and Information Systems Development, Web-Based Tools, Systems, and Environments, State-Of-The-Art Survey

JSW invite original, previously unpublished, research papers, review, survey and tutorial papers, application papers, plus case studies, short research notes and letters, on both applied and theoretical aspects.

**AUTHOR GUIDELINES** available on the web site at: <http://www.academpublisher.com/forauthors.html>

Special Issues are an important component of JSW. JSW encourage recognized experts to create special issues that feature specifically aimed and targeted topics of high current interest falling within the scope of the Journal.

JSW also invites organizers of high-quality conferences/workshops in the field to guest-edit Special Issue to guarantee fast publication of extended versions of the high-quality conference/workshop papers in the Journal.

**SPECIAL ISSUE GUIDELINES** available at: <http://www.academpublisher.com/specialissueguidelines.html>

**EDITOR-IN-CHIEF** Prof. Dr. Kassem Saleh, Kuwait University, KUWAIT (E-mail: [jsw.editorial@gmail.com](mailto:jsw.editorial@gmail.com))

**ASSOCIATE EDITOR-IN-CHIEF** Prof. Dr. ACM Fong, Auckland University of Technology, NEW ZEALAND

## EDITORS

Jehad Al-Dallal, Kuwait University, KUWAIT  
Rafa E. Al-Qutaish, Alzaytoonah University of Jordan, JORDAN
